**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, filed 10/07/2009, with respect to claims 1-15 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

***Allowable Subject Matter***

2. Claims 1-15 are allowed.
3. The following is an examiner's statement of reasons for allowance: The reasons for allowance can be found in Applicant's remarks filed 10/07/2009 in addition to the following statements:

Regarding independent claim 1, the prior art of record fails to teach or fairly suggest the combination of all limitations of claim 1 that includes:

**"e) a first compartment having a first translucent viewing pane and containing the first camera and the second illuminator;**

**f) a second compartment having a second translucent viewing pane and containing the second camera and the first illuminator;**

**in which the first and second compartments are separated from each other by an opaque wall preventing light from the first illuminator originating in the second compartment from reflecting off the second translucent pane directly to the first camera and preventing light from the second illuminator originating in**

**the first compartment from reflecting off the first translucent pane directly to the second camera.”**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

#### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Imagara (US 2002/0051578) teaches a method and apparatus for object recognition.

Takubo (US 6,377,191) teaches a system for assisting traffic safety of vehicles.
